Q FIRST PRESENTATION OF MATERIAL DEPENDENT CLAIM (3) OF 1980

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is Hurwitz. This result is obtained by using the method of the variation of constants.

If the energy is taken to be large the generalization of (1) with $\epsilon \rightarrow \infty$ is
